POLYTARP FLOOR PROTECTION

*One single flaw is enough
To change a "superior"
Product to "rejected"*

*That's the reason why
the use of Poly tarp to
protect valuable floor
surfaces during
construction is popular
all over the world.*

GUARANTEED **BEST QUALITY** IN THE MARKETPLACE

Features:

Double Laminated, woven reinforced
Water and dust resistant for interior applications
Anti-Slip surface for safety
Can be used for temporary on site weather proofing
Cost effective protection for easy clean up after construction
Can be used in conjunction with our Carpet Saver & Floor Saver
range of Self Adhesive Floor Protection Products

Size Range Available:

Polytarp Standard

1.83m x 100m
4m x 50m
Colour: White

Polytarp Super (140gsm)

1.83m x 100m
Colour: White

Carpet & Hardfloor Saver

Carpet Saver

Hardfloor Saver

Film Applicator

Floor Saver Films will protect valuable floor surfaces such as carpet, ceramic tiles, vinyl and factory finished floorboards during construction or renovation.

**OUR FILMS
ARE THE
THICKEST &
STRONGEST ON
THE MARKET**

Features:

- Available widths 0.5m & 1m x 100m rolls
- Reverse rolled self adhesive allows for fast and effortless installation
- **Carpet Saver features Super High Adhesive Strength**
- **Hardfloor Saver features Medium Adhesive Strength**
- Anti-slip surface for safety
- Cost effective protection for easy clean up
- Customised adhesive that will not leave any glue residue when removed (when manufacturers instructions are followed)
- Can be used in conjunction with our polytarp products (page 3)

Polycushion

FLOORING PROTECTION OF THE HIGHEST QUALITY

Polycushion provides the flexibility for today's toughest jobs. Polycushion offers superior strength where maximum protection is required and yet is subtle enough to protect the most delicate of surfaces such as polished timber floors, slate, marble floors or bench tops.

FEATURES

- Double laminate woven prevents tearing
- Foam backed to prevent abrasion
- Water and dust resistant
- Roll size – 1.5m x 50m
- Australian made and 100% recyclable

Foam Protector Wrap

SUPERIOR STRENGTH FOR MAXIMUM PROTECTION

The Foam Protector Wrap offers excellent surface abrasion protection and great cushioning protection for high usage areas. Foam Protector Wrap offers superior strength where maximum protection is required.

FEATURES

- Heavy duty double laminate woven prevents tearing
- 2mm PolyFoam backed to prevent abrasion
- Water and dust resistant
- Roll size – 1.2m x 50m
- Australian made and 100% recyclable

Window Film

The use of Window Film will protect valuable glass surfaces during construction or renovations

Features:

Available width 1220mm. Roll Lengths - 100m & 200m

UV Resistant for up to 6 months

Cost effective protection for easy clean up after construction

Corflute Sheet

The use of Corflute Sheeting, will protect valuable surfaces where extra cushioning is needed during construction or renovations

Colours Available:
Black and White

Available Size:

1800mm x 1200mm

2400mm x 1200mm

Sticky Mat Floor Protection

An innovative multi-layered adhesive mat designed to protect access points to your sites and carpeted areas

Suitable for industrial, commercial and residential sites

Each sticky layer simply peels away once exhausted

Available Size:

900mm x 600mm

900mm x 900mm

30 Sheets per mat

10 mats per carton

**RECOMMENDED
PRODUCT**

Safety Slitter

Shade cloth and Poly tarp Super comes in a variety of colours, transparency and sizes. Ideal for many applications, it is commonly used to reduce dust on building sites, create a privacy screening to building works, and is also used at events to give 100% privacy to the outside public or to advertise your company.

Please give us a call to discuss options.

JAMBRO TOOL & CLIPS

CABLE TIES

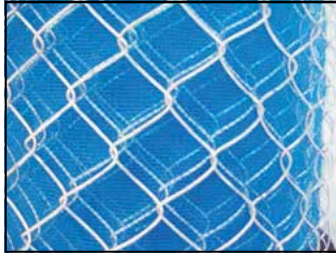

4.8 X 300mm (White or Black)

7.6 x 380mm (Black Only)

**TRUSTED SUPPLIER TO
AUSTRALIA'S
BIGGEST EVENTS**

Standard Chain & Shade (Scaff Mesh Attached)

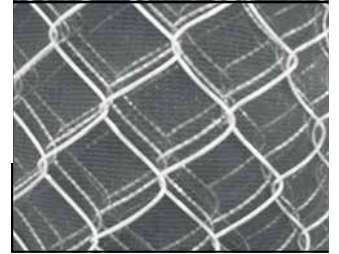

Available in the following sizes:

1.8m x 7.5m

1.8m x 10m

1.8m x 15m

Available in Green, Blue & Black

Premium Chain& Shade (70% Shadecloth Attached)

Available in the following sizes:

1.8m x 7.5m

1.8m x 10m

1.8m x 15m

Available in these colours.

FEATURES & BENEFITS:

- ◆ REDUCED TANGLING
- ◆ INCREASED DURABILITY
- ◆ EASIER TO INSTALL & DISMANTLE
- ◆ MORE RE-USAGE
- ◆ MORE COLOURS TO CHOOSE FROM

(Colours shown as a guide only and may not reflect true colours).

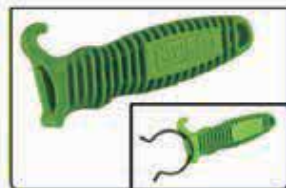

- Can be used for scaffold sheeting, debris netting, chain link and shade cloth
- Easier to use than tie wire and cable ties
- Reusable steel clips save time and money
- Designed and manufactured in Australia
- Australian and International patents pending

Clips

Driver

Gripz

Protector Caps

How To Use...

Step 1

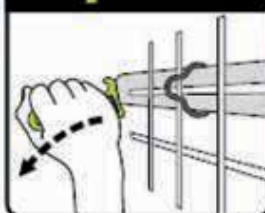

Insert the KwikAz clip into the jaws on the front of the Driver and push down until fully engaged.

Step 2

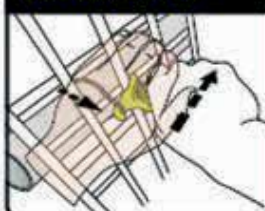

In a single action, firmly strike the KwikAz clip through the containment screening and around the pole/standard. Ensure the clip is perpendicular to the standard or ledger, and not at an angle.

Step 3

Withdraw the Driver leaving the KwikAz clip attached to the containment screening and the pole/standard.

Removal

Insert the hook into the loop of the clip, rest the bottom of the Driver against the pole, and lever the clip off whilst covering the clip with your other hand, making it easier to recover.

DYNAMESH® is a uniquely designed and patented containment system for use in the Scaffolding, Construction and Mining Industries.

DYNAMESH® has been extensively tested against similar products in the market today. DYNAMESH® has shown it is consistently 50% stronger and 30% lighter than others.

Please give one of the Team a call to discuss your needs and pricing.

DYNAMESH® complies with:

- **AS 2001.2.3.1-01**
- **AS 3706.4**
- **AS 1891.1 App B**
- **Queensland workplace Health & Safety Regulations 2008,**
- **Section 282.2**
- **All test reports are available on request.**

SIZE: 1.85m x 10m & 92.5cm x 10m

COLOURS: BLUE, BLACK, GREEN & RED

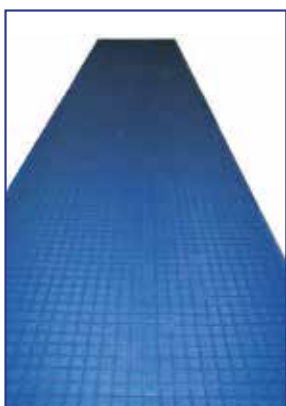

Constructed from High Density Polyurethane with fiberglass re-enforced banding, stitched to provide stability and strength, it is one of the strongest and lightest products available in the market today.

Dynamesh® is available in standard 1.85 metre high X 10 metre length Rolls, weighing in at 14.5 kg per roll, making it easier for single person handling and less wastage.

Benefits include:

- Significant savings in labour installation and dismantle times
- Wire is eliminated completely, no wire tangles or protuberances
- No wire = no wire lacerations
- Reduction of trip hazards
- Ease of use and more importantly re-use
- Can be cut and shaped easily with snips
- Highly durable, can be re-used multiple times

Colours: Terracotta, Lead Grey, Black & Brown

ROOFING LEAD

Sheet lead is one of the oldest roof flashing materials where its durability comes to the fore withstanding years of exposure to the elements in all sorts of environments to give timeless protection. Softness and ductility allow easy forming of sheet lead to suit all roof profiles and its weight ensures that it stays in place even in strong winds.

3 Metre Rolls 15kg (1.3mm) & 20kg (1.8mm)
Widths: 110mm, 150mm, 230mm, 300mm, 350mm 380mm, 450mm 600mm & 900mm

Hardware & Building Accessories

BLACK STEEL STAR POSTS

Sizes: 450mm, 600mm, 900mm, 1350mm
1650mm, 1800mm & 2400mm

10 Star Posts per Bundle

CONSTRUCTION PRODUCTS

Grassroots™

Description

A synthetic erosion control matting designed to withstand higher velocity water flows.

It is manufactured in Australia from heavy synthetic filaments which create a three-dimensional structure, allowing seeds to germinate successfully and grow through the matting.

This gives a natural aesthetic appearance prior to seed germination.

Specifications

Name	Grassroots™			
Material	Synthetic	fibres	made	from
	Stable	polypropylene,		UV
	punched onto a sythetic scrim			
Scrim	Black Polypropylene mesh 4x4mm squares, weight 80gsm. Tensile Strength cross directional not less than 5kN/m ² Machine Directional not less than 5kN/m ²			
Mass	380 - 400gsm/m ²			
Density	90 - 107kg/m ³			
Pinning Rate	3 pins per m ²			
Dimensions	Length	Width	Area	Mass
	60m	2.0m	120m ²	45kg
	60m	4.0m	240m ²	91kg

Benefits

HALTS EROSION

Extremely tough, flexible and economical erosion control treatment.

STRENGTH

Capable of withstanding consistently higher velocity water flows.

LONG TERM

Aesthetically pleasing surface treatment, eventually becoming a hidden structure.

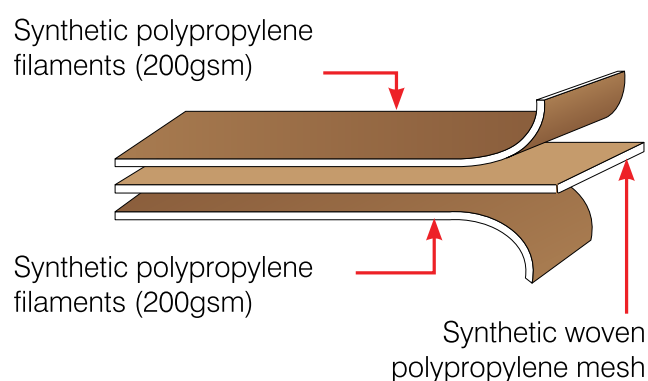

PLANT ESTABLISHMENT

Provides a stable environment for seeds to establish.

Applications

A synthetic long-lasting grass establishment and erosion control matting ideal for:

- Channels
- Swale drains
- Riparian areas
- Steep batters
- Spillways & dam walls
- Floodways
- Golf courses
- Coastal sites
- Water velocities of up to 4.8m per second

Drainage & Erosion Products

WEED MAT

Great for Landscaping or short term visual block out for construction & event sites.

Size: 1.83m x 50m

SILT BARRIER

Perfect solution in application where a need arises for the control of silt runoff on a building site.

Size: 800mm x 50m Rolls

SAND SAUSAGE (SILT CONTROL) CONTINUOUS CUT & TIE

Perfect solution in application where a need arises for the control of silt runoff Into storm water drains

Size: 230mm X 50m

STEEL U PINS

Sizes: 150mm, 200mm & 300mm

Drainage & Erosion Products

SUB SOIL DRAINAGE AG PIPE

50mm, 60mm & 100mm slotted pipe, with or without filter sock.

Lengths: 20m, 50m & 100m

MEGAFLO 170 & MEGAFLO 300 FLAT PANEL DRAINAGE PIPE WITH BIDIM FILTER FABRIC

Lengths: 50m & 100m

BIDIM FILTER GRADE GEOTEXTILE (Regular)

Sub-surface Drainage Fabric Filter Wrap

Sizes: 0.6m, 1.0m, 1.2m & 2.0m

Length: 50m

BIDIM SOIL COVER GEOTEXTILE (Heavy Duty)

Sizes: 2.0m

Length: 100m

RECOMMENDED PRODUCT

STEEL U PIN

Safety Fence Products

HDPE, UV STABILISED LOCK-STITCHED KNITTED SHADE- CLOTH 70%

Sizes available 91.5cm & 1.83m x 50m rolls

(Colours shown as a guide only and do not reflect true colours).

EXTRUDED SAFETY BARRIER

Size: 1m x 50m Rolls

SAFETY FENCE (ONION BAG TYPE)

Size: 90cm x 50m

Great as a budget visual aspect around building sites.

Company Profile

Davmar Industries Pty Ltd is a family owned and operated business that has been established for 14 years.

We have branches located in Melbourne and Sydney with the capabilities to service the building and construction industries across Australia.

Our core business is the importing and distribution of a specialised range of commercial building products.

We have a strong relationship with all our customers to ensure we get to know their business and are able to serve them to the highest standard.

"Our aim is to provide our customers with the best quality products, fast and efficient service at competitive pricing.

Quality control is paramount and therefore we build strong relationships with our manufacturers and suppliers along with independent testing of our products including our own testing in house to further ensure quality.

To ensure our customer's business is the most efficient we maintain a close working relationship with our transport companies to ensure on time and speedy delivery of our products to all parts of Australia.

We see Davmar Industries Pty Ltd as

"LARGE ENOUGH TO COPE, SMALL ENOUGH TO CARE"

Regards,
The Team at Davmar Industries Pty Ltd
